WHY ATTEND?
Rangelands cover nearly 50% of the state of Nebraska. They are used by not only beef cattle, but wildlife and humans. In addition to providing agricultural products, rangelands also provide wildlife habitat, recreational opportunities, sustainable biodiversity, and key environmental functions such as carbon sequestration and water cycling.

Management needs of rangelands are diverse and require innovative approaches for ultimate success.

WHAT WILL BE TAUGHT?
The Nebraska Youth Range Camp provides hands-on experience with rangeland and natural resources taught by up to 20 professionals from various agencies, colleges, and universities. Campers will learn about:

• Range Plant Identification
• Range/Ecological Sites
• Plant Anatomy and Growth
• Range Improvements
• Rangeland Ecology
• Similarity Index
• Stocking Rates
• Livestock Health
• Wildlife Habitat
• Geology
• Monitoring Methods

We have a dynamic curriculum that appeals to students with a wide array of interests including, but not limited to; rangeland management, conservation, ecology, animal science, and wildlife.

With over 55 years to perfect and evolve this curriculum, every student, no matter what prior experience they have, will learn substantial information that will help them become more aware of Nebraska’s most prevalent landuse.

WHAT ACTIVITIES WILL TAKE PLACE?
Campers participate in field activities, lectures, leadership/team-building activities, and a field trip to a local working ranch. These field trips and activities illustrate different goals and the related range management activities that are implemented to achieve these goals.

WHO CAN ATTEND?
Attendees should be at least 14 years of age but not over 18 by October 1, 2019.

Students attending Range Camp often have sponsors to help them with the costs of camp. Contact your FFA Advisor or 4-H Club Leader for possible scholarships for Range Camp. Many Natural Resources Districts also offer sponsorship for local students. Contact your local NRD Manager for details.

WHERE IS CAMP?
The 56th Nebraska Youth Range Camp will take place on the campus of the Nebraska College of Technical Agriculture in Curtis, NE. Camp will begin on June 10 and run through June 14, 2019. Campers will stay in the dorms and have a week full of exciting, educational, hands-on experiences.
